

Swiss-based Muller Technology is a global leader in injection mold making, robotics, and automation technology to produce thin-wall plastic packaging used in the food, medical, and other industries

We are searching for our site in Conthey:

## Mold Design Engineer

As Design Engineer, you will be part of a young and dynamic team which is in charge to develop leading-edge technology for consumer and industrial packaging solutions in the food, non-food, healthcare and medical industry. For our team currently working out of Switzerland, Spain, and the USA, we are looking for a talented and detail-oriented Design Engineer, experienced for carrying out a variety of innovative engineering duties.

### Responsibilities:

- Design injection molds on CAD-system 3D EXPERIENCE (CATIA V6)
- Develop & optimize plastic parts according to market & customer needs
- Establish 2D drawings, assembly drawings and assembly instructions
- Continuous improvement of current designs
- Bill of material and integration in SAP-B1 of Mold structures
- Maintain and continuously improve our 3D EXPERIENCE database
- Technical support to manufacturing and quality team
- Project follow-up in collaboration with other departments
- Active participation to product and process R&D
- Design review and communication with customers
- Respect time budgets to complete tasks while delivering impeccable quality
- Occasionally: support to the after-sales service department, visits to customers / suppliers or other activities allowing the improvement of our installed products and / or in development.

### Requirements:

- Mechanical Engineer or similar with experience in injection molding in the Rigid Plastic Packaging / Medical and Healthcare industry
- Deep understanding in manufacturing technologies and capabilities
- Good expertise in CAD-systems, ideally 3D EXPERIENCE
- Proficient in English (written and spoken)
- Ability to work and collaborate in a team
- Familiar with ERP-system SPA-B1 would be an asset
- Microsoft Office computer skills e.g. Word, Outlook, Excel, Power Point, Project

### What can we offer you?

- Varied activity within an international group, in a state-of-the-art environment
- Independent and responsible work in a young and dynamic team
- Efficient tools and working methods
- Social and wage benefits of a modern company
